

About DCAC

Dorchester Children's Advocacy Center is the only Children's Advocacy Center in Dorchester County which serves Dorchester, Berkeley and a small portion of Charleston county. The purpose of a Children's Advocacy Center is to provide a comprehensive, culturally competent, multidisciplinary team response to allegations of child abuse in a dedicated, child-friendly setting. This type of setting and the multidisciplinary team model are essential to the accomplishment of the mission of Children's Advocacy Centers. At our center, children only have to tell their story of abuse once, rather than to each professional involved with their case, which greatly reduces additional trauma to the child.

► Our Mission

Our Center provides a coordinated, evidence-based response to child abuse that reduces trauma and provides treatment for the children and families in our community in a safe, child-focused environment.

► Our Vision

Dorchester Children's Advocacy Center is dedicated to creating communities in which children and families live free from abuse and are free to reach their full potential.
